HIGHLIGHTED PROJECTS

HHS/Centers for Medicare and Medicaid Services (CMS)

Medicaid and CHIP Business Information Solution (MACBIS) - *sub* January 2016 - Present

Theta has been providing digital integration and product development services to the Centers for Medicare and Medicaid Services (CMS), a center of CMS', as a sub to multiple prime contractors on various projects in the MACBIS portfolio since 2016. Some of these projects include(d): IAMTPS, MACPro, eAPD, and TMSIS. These projects share a joint mission to meet congressional mandates requiring reliable, comprehensive, and timely Medicaid and CHIP operational and programmatic data supported by leading-edge technology and analytics solutions. *Theta* has provided but is not limited to: cloud migration and digital infrastructure support, full-stack development support, tier 2 & 3 support, and has participated in ad-hoc DME activities in support of the MACBIS' portfolio fulfilling its mission.

USAGM/Office of Internet Freedom (OIF)

Internet Censorship Circumvention Tools BOA - *prime* November 2020 - Present

Theta has been chosen as a partner to USAGM to help them streamline the process to rapidly build, test, deliver, or obtain Internet Censorship circumvention digital services relating to state-of-the-art tools and specialized open-source software and systems for circumventing Internet censorship by foreign governments.

HIGHLIGHTED PROJECTS CONT'D

DOT/National Highway Traffic Safety Administration (NHTSA)

State Legislative Research & Development - *prime* September 2018 - Present

Theta was tasked with the objective to provide legislative resource reports, data collection, and summary charts to NHTSA to provide accurate information about State laws on traffic safety. These reports include producing traffic law digests on topics and summary charts of State traffic safety laws on emerging issues and other policy and data research to create visualizations and reports on the yearly traffic legislation differences in ways never done previously.

HHS/Centers for Medicare and Medicaid Services (CMS)

Performance, Compliance Management and Statistical Modeling/Analytical Support Services (PCM) - *sub* January 2020 - Present

Theta is part of a RADV TA assessment team of consultants supporting the strategic and tactical technical operations goals and objectives of the CPI front office in the topics of IT Governance, Data Management, IV&V Testing, Program Reviews & Evaluations, Program Compliance & Risk Management. The team's other tasks encompass the strategic and tactical direction, structure, organization, staffing, processes, and procedures that foster sound management decision-making and reduce program risk. **Theta's** expertise for this project is on technical oversight and guidance, program prioritization, and operational assessments, focusing on Digital Infrastructure & Change Management.

HHS/Centers for Medicare and Medicaid Services (CMS)

Electronic Advance Planning Document (e-APD) - *sub* Feb 2021 - Present

Theta is part of a team providing end-to-end software development and experience design services that follow the USDS Digital Playbook to streamline the eAPD submission, review, and decision-making process intuitively for the Center for Medicaid and CHIP Services (CMCS).
